# 1. Identification of the substance / preparation and the company

### Information on the product

Trade name: **DURASPLINT** monomer

**Use / Purpose:** Orthodontic resin, self-curing acrylic, liquid component of the 2-component acrylic

system based on methyl methacrylate (powder and liquid), for the purpose of making

#### Information on the manufacturer

SCHEU-DENTAL GmbH

Am Burgberg 20 Internet: www.SCHEU-DENTAL.com 58642 Iserlohn

Tel.: +49 (0)2374 / 9288-0 +49 (0)2374 / 9288-90 Fax:

Email: service@SCHEU-DENTAL.com

# 2. Hazards identification

### Hazard symbols

Highly flammable

# Special guidelines concerning dangers to humans and the environment

Highly flammable. Irritating to respiratory system and skin. May cause sensitization by skin contact.

### 3. Composition / Information on ingredients

#### Chemical characterization

Mixture on the basis of methyl methacrylate

### **Hazardous ingredients**

### 4. First aid measures

**General Information:** Remove soaked clothing immediately. Medical treatment is necessary if

symptoms occur that are obviously caused by skin or eye contact with the

product or by inhalation of its vapours.

In case of inhalation remove casualty to fresh air and allow to rest. Seek medical After inhalation:

advice.

In case of contact with skin wash off immediately with soap and water. If skin After contact with skin:

irritation occurs, seek medical advice.

After contact with eyes: In case of contact with eyes rinse thoroughly with plenty of water while keeping

the eyelids apart. If irritation persists seek medical advice.

After ingestion: Do not induce vomiting. Seek medical advice immediately.

# 5. Fire-fighting measures

### Suitable extinguishing media

Foam, dry powder, carbon dioxide

# Unsuitable extinguishing media for safety reasons

Water

### Special protective equipment for fire fighting

Wear self-contained breathing apparatus

#### 6. Accidental release measures

# Personal precautionary measures

Assure appropriate air-flow. Wear protective clothing. Keep away sources of ignition. Use breathing apparatus if exposed to vapours/dust/mist/aerosol.

### **Environmental protection measures**

Do not allow to get into drains/surface water/groundwater

### Measures for cleaning

Large quantities: Remove mechanically (hydraulic pump). Assure explosion-safe measures!

smaller quantities: Pick up with liquid absorbing material (sand, diatomaceous earth, acid absorbent,

sawdust or tissues)

### 7. Handling and storage

#### Instructions on safe handling

Keep container well closed. Assure appropriate air-flow.

# Information on fire and explosion protection

Keep away from sources of ignition - no smoking. Take precautionary measures against static discharges. In the event of fire, cool the endangered containers with water.

## Requirements for storage areas and containers

Storage temperature:  $+10 \,^{\circ}\text{C}$  to  $+25 \,^{\circ}\text{C}$ Short term max.:  $-20 \,^{\circ}\text{C}$  to  $+30 \,^{\circ}\text{C}$ 

Store in original container only. Temperatures should never exceed 25 °C. Fill container up to 90% max, because enclosed oxygen (air) is needed for stabilization purposes. Keep out of direct sunlight. Special explosion safe environment needed to store quantities larger than 5l per container.

#### **Additional Information**

If the liquid should cool down to a temperature of lower than  $10^{\circ}$ C some of the ingredients may crystallize and sink to the bottom. If the materials temperature rises up to room temperature again these crystals dissolve again. The properties of the material will not be affected by this phenomena.

## 8. Exposure controls and personal protection

Components or products of decomposition according to point 10, with limit values related to the place of work which require monitoring.

LT-Value for

Methyl methacrylate 210 mg/m³ CAS-Number 80-62-6

maximum limitation category

#### Remarks

Y: Danger of damage to unborn children is not to be expected as long as the LT-value does not exceed above mentioned amount.

**General protective measures:** Do not inhale vapours. Avoid contact with eyes and skin.

Hygiene measures: Keep working clothes away from regular clothing. Take off

contaminated clothes immediately. Follow the regular standards of occupational hygiene. Clean skin thoroughly after work; apply skin

cream

**Respiratory protection:** Breathing apparatus in case of high concentrations

**Eye protection:** Wear protective goggles.

Body protection: When handling larger quantities wear face shield, apron and chemical

resistant boots.

**Hand protection:** Wear protective gloves made of butyl rubber (0,7mm), break through

time 300 min (EN 374). In practice, due to variable exposure conditions, this information can only ba an aid to orientation for the selection of a suitable chemical protection glove. In particular, this

information does not substitute suitability tests by the user.

**general information:** Gloves should be changed regularly, especially after over excessive

contact with the product. A different type of glove should be considered

for each workplace.

### 9. Physical and chemical properties

**Appearance** 

Form: Liquid Colour: Colourless

Odour: Ester-like, slightly sweet, stinging

Changes in physical state (related to the component methyl methacrylate)

Melting temperature: -48,2 ℃

Boiling temperature: 100,3 °C (at 1.013 hPa)
Flashpoint: 10 °C (DIN 51755)
Ignition temperature: 430 °C (DIN 51794)
Self ignition ability: not determined

lower explosion limit: 2,1 %(V) upper explosion limit: 12,5 % (V)

vapour pressure: 38,7 hPa (at 20  $^{\circ}$ C) Density: 0,94 g/cm³ (at 20  $^{\circ}$ C) Relative vapor density related to air: > 1 (at 20  $^{\circ}$ C) solubility in water: 15,9 g/l (at 20  $^{\circ}$ C)

qualitative solubility: miscible with most organic solvents

pH-value: not applicable

n-octanol/water partition coefficient log Pow 1,38 (measured)

dynamic viscosity: 0,63 mPa.s (at 20 °C, Brookfield)

further information none

Trade name:

# **DURASPLINT** monomer

Issue: Page: 03.03.2009 4 of 7

10. Stability and reactivity

**Thermal decomposition:** No decomposition when used as directed.

hazardous reactions: Polymerization with heat evolution may occur in the presence of

radical forming substances (e.g. peroxides), reducing substances,

and/or heavy metal ions.

hazardous decomposition products: None when used as directed.

# 11. Toxicological information

The following information is related to the component methyl methacrylate.

Acute oral toxicity: >5.000 mg/kg; practically non-toxic if swallowed; LD50 rat, OECD

401

Acute inhalational toxicity: 29,8 mg/l; low toxicity by inhalation; LC50 rat, exposure 4h

Acute dermal toxicity: >5.000 mg/kg; practically non-toxic in contact with skin; LD50

rabbit

Irritant effect on skin: not irritating; rabbit; exposure 24h; FDA 1959 Draize, occlusive

Irritant effect on eyes: not irritating; rabbit; Draize

Sensitization: In sensitization tests on guinea pigs with and without adjuvant,

both positive and negative results were found. In humans various types of allergic reactions have been observed (symptoms:

headache, eye irritations, skin affections).

**Toxicity on repeated administration:** NOAEL 25ppm; at said dosis no adverse effects were observed.

At higher doses adverse effects were observed; rat; inhalative 2 a, 25-400ppm (Findings: damage to mucous membranes in the nose

at 400ppm)

NOAEL 2000ppm; rat; drinking water 2 a, 6-2000ppm (Findings:

no toxic effects)

Mutagenicity: Positive as well as negative results within in vitro mutagenicity /

genotoxicity tests. No experimental indication of genotoxicity in vivo available. In summary **not mutagenic** according to

internationally accepted criteria.

Carcinogenicity: Non-carcinogetig in inhalation and feeding studies carried out on

rats, mice and dogs.

Reprotoxicity / teratogenicity: No indications of toxic effects were observed in reproduction

studies in animals.

Additional information: Avoid contact with the skin and eyes and inhalation of the product

vapours.

### 12. Ecological information

Information on elimination (persistence and degradability)

**Biodegradability:** readily degradable, ca. 94 %

Method: OECD 301 C, 14d

**Ecotoxicological effect** 

Fish toxicity (LC50): > 79 mg/l

Oncorhynchus mykiss, rainbow trout, OECD 203 GLP, 96h

Daphnia toxicity (EC50): 69 mg/l

Daphnia magma, OECD 202, 48h

NOEC 37 mg/l

Daphnia magna, OECD 202, 21 d

Algae toxicity (EC3): 37 mg/l

Scenedesmus quadricauda, DIN 38412 section 9, 8d

for the liquid

### Trade name:

# **DURASPLINT** monomer

Issue: Page: 03.03.2009 5 of 7

Algae toxicity (EC50) 170 mg/l

Selenastrum capricornutum, OECD 201, 96h

Bakteria toxicity (EC0) 100 mg/l

Pseudomonas putida

# Additional ecological information

Do not allow to enter soil, waterways or waste water.

### 13. Disposal considerations

# Product (Components, powder and liquid)

European waste code: 07 02 99

Waste name: Not yet cured acrylic leftovers, compounds or components.

Recommendations: Must be disposed of in accordance with the regulations of the local authorities and

the disposal company in a suitable and licensed facility.

# Already cured acrylic leftovers (both components mixed and cured)

European waste code: 17 02 03

Waste name: other cured acrylic waste

Recommendations: Can be disposed of in accordance with the regulations of the local authorities and

the disposal company in a suitable and licensed facility.

### Contaminated packaging

Recommendations: Can be burned in accordance to local regulations. Dispose decontaminated

packaging at local recycling facilities.

### 14. Transport information

# Overland transport ADR/RID/GGVSE

Class: 3 flammable liquids

Dangerous cargo number: 339
UN Number: 1247

# 15. Regulations

### Labelling in accordance to EC directive GefStoffV

requires labelling

#### Hazardous component for labelling

contains methyl methacrylate

# Hazard symbols

F Highly flammable

Xi Irritant

# Risk phrases (R-phrases)

11 Highly flammable

37/38 Irritating to respiratory system and skin43 May cause sensitization by skin contact

### Safety phrases (S-phrases)

Avoid contact with skinWear suitable gloves

46 If swallowed, seek medical advice immediately and show container or label

### **National regulations (for Germany only)**

Technical regulation for air 5.2.5

Water hazards class 1 (VwVwS, Annex 2)

### **Occupational restrictions**

- Note for juveniles
- Note for pregnant women and nursing mothers

### 16. Other information

This product is normally supplied in a stabilized form. If the permissible storage period and/or storage temperature is exceeded, the product may polymerize with heat evolution.

### Relevant Risk phrases (R-phrases)

11 Highly flammable

23/24/25 Toxic by inhalation, in contact with skin and if swallowed

33 Danger of cumulative effects

37/38 Irritating to respiratory system and skin 43 May cause sensitization by skin contact

52/53 Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment
