(Contd. of page 1)

- 24/25 Avoid contact with skin and eyes.
- 26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- 28 After contact with skin, wash immediately with plenty of water.
- 37/39 Wear suitable gloves and eye/face protection.
- 60 This material and its container must be disposed of as hazardous waste.
- · Special labelling of certain preparations:
- Contains Bisphenol A Diglycidylether Diacrylat (BADGE-DA), methacrylic acid, monoester with propane-1,2-. May produce an allergic reaction.
- Other hazards

Results of PBT and vPvB assessment

- **PBT:** Not applicable.
- vPvB: Not applicable.

3 Composition/information on ingredients

· Chemical characterization: Mixtures

· Description: Product based on methacrylates

 Dangerous com 	ponents:		
CAS: 28961-43-5	Triacrylat eines oxyethylierten Trimethylpropans	Xi R36	10-25%
CAS: 27813-02-1 EINECS: 248-666-3		Xi R36; Xi R43	5-10%
CAS: 10373-78-1 EINECS: 233-814-1	2,3-Bornandion	Xi R36/38	0-5%
· Additional inforr	mation For the wording of the listed risk phrases refer	to section 16.	

4 First aid measures

· Description of first aid measures

- After skin contact The product is not skin irritating.
- · After eye contact
- Rinse opened eye for several minutes under running water. If symptoms persist, consult doctor.
- · After swallowing Initiate vomiting and consult a doctor.
- Information for doctor
 - Most important symptoms and effects, both acute and delayed No further relevant information available.
 - · Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Firefighting measures

- · Extinguishing media
 - · Suitable extinguishing agents

CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. Use fire fighting measures that suit the environment.

- Special hazards arising from the substance or mixture
- Formation of toxic gases is possible during heating or in case of fire.
- · Advice for firefighters
- Protective equipment: No special measures required.
- · Additional information -

(Contd. on page 3)

6 Accidental release measures

- · Personal precautions, protective equipment and emergency procedures Not required.
- Environmental precautions: Prevent material from reaching sewage system, holes and cellars. • Methods and material for containment and cleaning up:
- Absorb with liquid-binding material (diatomite, universal binders, for small amounts tissues).
- Reference to other sections
- No dangerous materials are released.
- See Section 8 for information on personal protection equipment.

7 Handling and storage

- · Handling
 - · Precautions for safe handling Keep containers tightly sealed.
 - · Information about protection against explosions and fires: No special measures required.
- · Conditions for safe storage, including any incompatibilities
 - · Storage
 - · Requirements to be met by storerooms and containers: No special requirements.
 - · Information about storage in one common storage facility: Not required.
 - Further information about storage conditions: Store cool (not above 25 °C).
- Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

- · Control parameters
 - · Components with critical values that require monitoring at the workplace:
 - The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

· DNELs

Protection of hands:

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

· Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

· Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

• For the permanent contact in work areas without heightened risk of injury (e.g. Laboratory) gloves made of the following material are suitable: Natural rubber, NR

PVC or PE gloves

- Eye protection: Protective goggles are recommended.
- · Body protection: Light weight protective clothing

9 Physical and chemical p	properties
 Information on basic physica General Information Appearance: 	al and chemical properties
Form:	Pasty
· Colour: · Smell:	According to product specification Ester-like
 Change in condition Melting point/Melting r Boiling point/Boiling r 	
· Flash point:	101 °C
· Self-inflammability:	Product is not selfigniting.
 Danger of explosion: 	Product is not explosive.
· Steam pressure at 20 °C:	40 mbar
· Density at 20 °C	1.360 g/cm³
Solubility in / Miscibility v Water:	vith Not miscible or difficult to mix
· Solvent content:	
Solids content: Other information	26.8 % No further relevant information available.

10 Stability and reactivity

· Reactivity

Chemical stability

Conditions to be avoided: No decomposition if used and stored according to specifications.

- Possibility of hazardous reactions No dangerous reactions known
 Open difference to exactly the further relations and the former tensor of tensor of
- Conditions to avoid No further relevant information available.
- Incompatible materials: No further relevant information available.

Additional information:

If stored longer than recommended and/or above recommended temperature, product may polymerize generating heat.

11 Toxicological information

· Information on toxicological effects

Acute toxicity:

· LD/LC50 values that are relevant for classification:

4687-94-9 Bis-Glycidylacrylat

Oral LD50 >2000 mg/kg (rat)

Dermal LD50 >2000 mg/kg (rabbit)

109-16-0 triethylenglycoldimethacrylate

Oral LD50 10837 mg/kg (rat)

27813-02-1 methacrylic acid, monoester with propane-1,2-

LD50 > 5000 mg/kg (rat) Oral

Dermal LD50 > 5000 mg/kg (rab)

- · Primary irritant effect:
 - on the skin: No irritant effect.
 - · on the eye: Irritant effect.
- · Sensitization: Sensitizing effect by skin contact is possible by prolonged exposure.
- Additional toxicological information:

The product shows the following dangers according to the calculation method of the General EC Classification Guidelines for Preparations as issued in the latest version: Irritant

12 Ecological information

· Toxicitv

- Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behaviour in environmental systems:
- Bioaccumulative potential No further relevant information available.
- Mobility in soil No further relevant information available.
- Additional ecological information: General notes:

Do not allow undiluted product or large quantities of it to reach ground water, water bodies or sewage system.

- · Results of PBT and vPvB assessment
 - PBT: Not applicable.
 - · vPvB: Not applicable.

· Other adverse effects No further relevant information available.

13 Disposal considerations

- · Waste treatment methods Recommendation
 - Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

Śmall quantities can be polymerized by light and the cured solid material can be disposed of with the regular garbage. Larger quantities must be disposed of following the regulations of the local authorities.

Safety data sheet according to 1907/2006/EC, Article 31

Printing date 06.12.2012

Revision: 06.12.2012

(Contd. of page 3)

Page 4/5

Trade name: Signum composite ...

· Additional information:

If stored longer than recommended and/or above recommended temperature, product may polymerize generating heat.

11 Toxicological information

· Information on toxicological effects

· Acute toxicity:

- Primary irritant effect:
 - on the skin: No irritant effect.
 - on the eye: No irritant effect.
- · Sensitization: No sensitizing effect known.
- · Additional toxicological information:

The product is not subject to classification according to the calculation method of the General EC Classification Guidelines for Preparations as issued in the latest version.

When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

12 Ecological information

· Toxicity

- Aquatic toxicity: No further relevant information available.
- Persistence and degradability No further relevant information available.
- · Behaviour in environmental systems:
- · Bioaccumulative potential No further relevant information available.

• Mobility in soil No further relevant information available.

Additional ecological information:

· General notes:

Do not allow product to reach ground water, water bodies or sewage system.

- Danger to drinking water if even small quantities leak into soil.
- Results of PBT and vPvB assessment
 - **PBT:** Not applicable.
 - vPvB: Not applicable.

· Other adverse effects No further relevant information available.

13 Disposal considerations

· Waste treatment methods

Recommendation

Small quantities can be polymerized by light and the cured solid material can be disposed of with the regular garbage. Larger quantities must be disposed of following the regulations of the local authorities.

· European waste catalogue

18 01 06 chemicals consisting of or containing dangerous substances

· Uncleaned packagings:

Recommendation: Disposal must be made according to official regulations.

14 Transport information

· UN-Number

· ADR, ADN, IMDG, IATA

Void

(Contd. on page 5)

4 First aid measures

- Description of first aid measures
 - General information No special measures required.
 After skin contact The product is not skin irritating.

 - · After eye contact Rinse opened eye for several minutes under running water.
 - After swallowing Initiate vomiting and consult a doctor.
 - · Information for doctor
 - Most important symptoms and effects, both acute and delayed No further relevant information available.
 - · Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Firefighting measures

· Extinguishing media

- Suitable extinguishing agents
- CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. Use fire fighting measures that suit the environment.
- Special hazards arising from the substance or mixture No further relevant information available. Advice for firefighters
- Protective equipment: No special measures required.
- Additional information -

6 Accidental release measures

- · Personal precautions, protective equipment and emergency procedures Not required.
- Environmental precautions: No special measures required.
- · Methods and material for containment and cleaning up: Absorb with liquid-binding material (diatomite, universal binders, for small amounts tissues).
- Reference to other sections
- See Section 13 for information on disposal.
- See Section 8 for information on personal protection equipment.

7 Handling and storage

- Handling
 - · Precautions for safe handling No special measures required.
 - Information about protection against explosions and fires: No special measures required.
- · Conditions for safe storage, including any incompatibilities
 - Storage
 - Requirements to be met by storerooms and containers: No special requirements.
 - · Information about storage in one common storage facility: Not required.
 - Further information about storage conditions: Store cool (not above 25 °C).
- Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

· Control parameters	
Components with critical values that require monitoring at the workplace:	
The product does not contain any relevant quantities of materials with critical values that have	to
be monitored at the workplace.	
 Additional information: The lists that were valid during the compilation were used as basis. 	
Exposure controls	
· Personal protective equipment	
· General protective and hygienic measures	
The usual precautionary measures should be adhered to in handling the chemicals.	
· Breathing equipment: Not required.	
· Protection of hands:	
The glove material has to be impermeable and resistant to the product/ the substance/ the	าค
preparation.	
Selection of the glove material on consideration of the penetration times, rates of diffusion a	าd
the degradation	
· Material of gloves	
The selection of the suitable gloves does not only depend on the material, but also o	on
further marks of quality and varies from manufacturer to manufacturer.	
Penetration time of glove material	
The exact break trough time has to be found out by the manufacturer of the protection	/e
gloves and has to be observed.	
· For the permanent contact in work areas without heightened risk of injury (e.	g.
Laboratory) gloves made of the following material are suitable:	-
Butyl rubber, BR	
Nitrile rubber, NBR	
• For the permanent contact of a maximum of 15 minutes gloves made of the	1e
following materials are suitable:	
Butyl rubber, BR	
Nitrile rubber, NBR	
 Eye protection: not absolutely neccessary 	
Body protection: Light weight protective clothing	
Dhusiaal and chemical properties	
Physical and chemical properties	
Information on basic physical and chemical properties]
· General Information	
· Appearance:	
Earm	

Appearance: Form: Colour: Smell:	Fluid Different according to colour Odourless	
 Change in condition Melting point/Melting Boiling point/Boiling r 	range: Not determined range: >200 °C	
· Flash point:	>100 °C	
· Self-inflammability:	Product is not selfigniting.	
· Danger of explosion:	Product is not explosive.	
· Density at 20 °C	0 g/cm ³	
 Solubility in / Miscibility Water: 	with Not miscible or difficult to mix

· Other information

No further relevant information available.

10 Stability and reactivity

· Reactivity

- Chemical stability
- **Conditions to be avoided:** No decomposition if used and stored according to specifications. · Possibility of hazardous reactions No dangerous reactions known
- · Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: None
- · Additional information:

If stored longer than recommended and/or above recommended temperature, product may polymerize generating heat.

11 Toxicological information

· Information on toxicological effects

- · Acute toxicity:
 - · Primary irritant effect:
 - on the skin: No irritant effect.
 - on the eye: No irritant effect. Sensitization: No sensitizing effect known.
- Additional toxicological information:

The product is not subject to classification according to the calculation method of the General EC Classification Guidelines for Preparations as issued in the latest version.

When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

12 Ecological information

- · Toxicitv
 - Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behaviour in environmental systems:
 - Bioaccumulative potential No further relevant information available.
 - Mobility in soil No further relevant information available.
- Additional ecological information:
 - General notes:
 - Do not allow product to reach ground water, water bodies or sewage system. Danger to drinking water if even small quantities leak into soil.

· Results of PBT and vPvB assessment

- PBT: Not applicable.
- vPvB: Not applicable.
- · Other adverse effects No further relevant information available.

13 Disposal considerations

· Waste treatment methods

Recommendation

Small quantities can be polymerized by light and the cured solid material can be disposed of with the regular garbage. Larger quantities must be disposed of following the regulations of the local authorities.

· Additional information For the wording of the listed risk phrases refer to section 16.

4 First aid measures

· Description of first aid measures

- · After skin contact Instantly rinse with water.
- After eye contact
- Rinse opened eye for several minutes under running water. If symptoms persist, consult doctor.
- After swallowing Initiate vomiting and consult a doctor.
- Information for doctor
 - · Most important symptoms and effects, both acute and delayed
 - No further relevant information available. Indication of any immediate medical attention and special treatment needed
 - No further relevant information available.

5 Firefighting measures

- Extinguishing media
 - Suitable extinguishing agents

CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. Use fire fighting measures that suit the environment.

- Special hazards arising from the substance or mixture
- Formation of toxic gases is possible during heating or in case of fire.
- · Advice for firefighters
- · Protective equipment: No special measures required.
- · Additional information -

6 Accidental release measures

· Personal precautions, protective equipment and emergency procedures Not required.

- Environmental precautions: Prevent material from reaching sewage system, holes and cellars.
- Methods and material for containment and cleaning up:
- Absorb with liquid-binding material (diatomite, universal binders, for small amounts tissues).
- · Reference to other sections

No dangerous materials are released.

See Section 8 for information on personal protection equipment.

7 Handling and storage

· Handling

· Precautions for safe handling Keep containers tightly sealed.
